- E. INFORMATION:

The beacon person drove to a rather isolated area. While the beacon was on the road, there was a rather large sign on the side of the road. This sign was black and white in color and it had a checkered or diamond design.

The target was a large square structure that stood on a small hill. This large structure was somewhat isolated. There was a setting in the background that looked natural except that it had beautiful colors like navy blue and yellow. I could not sense people here or much activity. I don't think the beacon went inside the structure.
